## PATENT COOPERATION TREATY

INTERNATIONAL SEARCHING AUTHORITY To: WRITTEN OPINION OF THE see form PCT/ISA/220 INTERNATIONAL SEARCHING AUTHORITY (PCT Rule 43bis.1) Date of mailing (day/month/year) see form PCT/ISA/210 (second sheet) Applicant's or agent's file reference FOR FURTHER ACTION see form PCT/ISA/220 See paragraph 2 below Priority date (day/month/year) International filing date (day/month/year) International application No. 02.03.2004 27.11.2003 PCT/T2004/000098 International Patent Classification (IPC) or both national classification and IPC E06B9/68 Applicant GIANUS S.P.A. This opinion contains indications relating to the following items: Box No. 1 Basis of the opinion Box No. Ⅱ Priority Non-establishment of opinion with regard to novelty, inventive step and industrial applicability ☐ Box No. III ☐ Box No. IV Lack of unity of invention Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial Box No. V applicability; citations and explanations supporting such statement Certain documents cited ☐ Box No. VI Certain defects in the international application ☐ Box No. VII ☐ Box No. VIII Certain observations on the international application **FURTHER ACTION** If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notifed the International Bureau under Rule 66.1 bis(b) that written opinions of this International Searching Authority will not be so considered. If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later. For further options, see Form PCT/ISA/220. For further details, see notes to Form PCT/ISA/220.

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/IT2004/000098

	Box I	No. I	Basis of the opinion				
1.	With regard to the <b>language</b> , this opinion has been established on the basis of the international application in the language in which it was field, unless otherwise indicated under this item.						
	This opinion has been established on the basis of a translation from the original language into the following language , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).						
2.	With regard to any <b>nucleotide and/or amino acid sequence</b> disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:						
	a. type of material:						
		а	sequence listing				
		ta	ble(s) related to the sequence listing				
	b. format of material:						
		in	written format				
		l in	computer readable form				
c. time of filing/furnishing:							
		c	ontained in the international application as filed.				
		fil	ed together with the international application in computer readable form.				
		l fu	rnished subsequently to this Authority for the purposes of search.				
3.	l	has I copie	Idition, in the case that more than one version or copy of a sequence listing and/or table relating thereto been filed or furnished, the required statements that the information in the subsequent or additional es is identical to that in the application as filed or does not go beyond the application as filed, as opriate, were furnished.				

4. Additional comments:

	Box No. II	Priority						
1.	☐ The following document has not been furnished:							
	· 🗵	copy of the earlier app	olicatio	n whose prio	rity has been claimed (Rule 43bis.1 and 66.7(a)).			
		translation of the earli	er appl	lication whos	e priority has been claimed (Rule 43bis.1 and 66.7(b)).			
	Conse nevert	equently it has not been possible to consider the validity of the priority claim. This opinion has theless been established on the assumption that the relevant date is the claimed priority date.						
2.	This opinion has been established as if no priority had been claimed due to the fact that the priority claim has been found invalid (Rules 43 <i>bis</i> .1 and 64.1). Thus for the purposes of this opinion, the international filing date indicated above is considered to be the relevant date.							
3.	. Additional observations, if necessary:							
	Box No. V industrial				is.1(a)(i) with regard to novelty, inventive step or supporting such statement			
1.	Statement							
	Novelty (N	)	Yes: No:	Claims Claims	1-23			
	Inventive s	step (IS)	Yes: No:	Claims Claims	1-23			
	Industrial a	applicability (IA)	Yes: No:	Claims Claims	1-23			
2.	Citations a	and explanations						

see separate sheet

## Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Reference is made to the following documents:

D1: US-1837129 D2: DE-4428983A

- 2. The document **D1** is regarded as being the closest prior art to the subject-matter of claim 1, and shows a screening device with a movable screen and an automating system, comprising
  - a mobile screen 3,
  - movement guiding means 6 for the screen,
  - compression means 14 for a fluid, providing a moving thrust on said mobile screen, and
  - channelling and controlling means 15,16,17 for said fluid.
- 3. The subject-matter of claim 1 differs from this known device in that it further comprises internal and external magnetic elements placed inside and outside said guiding means, respectively, with the external magnetic elements being connected to the mobile screen and cooperating with said internal magnetic elements for moving said screen.

The subject-matter of claim 1 is therefore new (Article 33(2) PCT).

- 4. The problem to be solved by the present invention may be regarded as providing for a transfer of the fluid pressure to forces able to move the screen.
- 5. The solution to this problem proposed in claim 1 of the present application is considered as involving an inventive step (Article 33(3) PCT) as none of the other documents revealed in the state of the art disclose these distinguishing features.
- 5.1 Document D1 shows the transfer of forces by means of magnetic elements in connection with movable screens, but no magnet element is provided inside the guiding means. Thus no fluid pressure could be transferred to the magnetic
